

BRANDED **NFC** CARDS

# BRANDED **NFC** **CARDS**

*swype*   
PERSONALISING YOUR IDENTITY

# Enter a contactless world with Swype

NFC cards are a form of RFID card, meaning data is stored and communicated wirelessly between two devices. Now used across various sectors and industries, NFC cards have moved beyond just being purely for bank cards.

You can find our NFC cards in a diverse range of industries. The possibilities of technology are quite endless.

## The Future is Near

With over two decades of experience, we've seen a huge rise in the adoption of NFC technology. You may not have heard the term NFC but we're certain you probably use it on multiple occasions every day. It's estimated that there are **2 billion NFC enabled devices in the world today**.

Whether it's for business or pleasure, NFC continues to lead the charge as the go to form of identification, access and payment.

At Swype, all our products are printed onsite with our state of the art manufacturing equipment. We can also offer innovative (and fun) solutions to any challenge, including NFC business cards. **Take your networking to the next level with a business card that passes information in a tap.** Easy, convenient and great if you want to save time.

# How do NFC cards work and their benefits?

If you've been on the tube or used contactless technology, you'll be familiar with NFC cards. Near-Field Communication cards, or NFC for short, **enables two devices to exchange data when placed near to each other** (both have to have an NFC chip installed).

Primarily used in contactless technology for payments, you can find NFC cards across many industries, including security, events and hospitality, retail and care homes.

## Why choose NFC?

- Safety** Reduce the risk of spreading harmful bacteria and germs with contactless technology data
- Versatility** NFC Cards go beyond wireless payments and can be used for multiple functions
- Security** Data can be encrypted onto your own systems and the cards are encoded with unique data
- Convenience** Save time and improve efficiency with contactless entry to buildings
